*Our quality machinery is made  
in the United States of America*

Welcome to our virtual showroom!  
Our packaging machinery is config-  
ured specifically for your product.  
Every component is designed to run  
smoothly and require a minimum of  
maintenance. Inquire about various  
options and custom configurations.  
Contact us for budgetary pricing or a  
formal written quotation.

**Expert Engineering for  
Superior Performance!**

*We manufacture a wide  
range of pouch and bag  
sealing machinery for  
both the start-up company  
and the well established  
production facility.*

## Gaining Momentum

We are very pleased to recommend our recently developed **Tabletop Conveyorized Band Sealer** model TCBSDM 3/8 6x3. This model was first introduced for sale at Pack Expo in 2011. Almost three years later, this model has been sold throughout the United States, Mexico, and Canada. This portable sealer includes a synchronized conveyor and is ideal for lightweight products or smaller stand-up pouches. Designed for seal heights of 3" up to 14" off the conveyor. A single line embossing coder option is available. Please inquire about any additional features which your application may require. We are dedicated to all of our customers and each unique product they have to be packaged. Read also about our satisfied customer's view-point in PMT Magazine July/August 2014 on page 72. Click on the digital edition icon below:

For additional information about this model click on the video or brochure icon below or simply call us or send an email with your product and bag specifications.

# Pouch and Bag Sealing Machinery

◆ DESIGNED FOR A WIDE RANGE OF APPLICATIONS ◆

◆ CANDY ◆ CONFECTIONS ◆  
◆ SNACKS ◆ COFFEE ◆

◆ PIZZA ◆ TORTILLAS ◆  
◆ BAKERY ◆

## USDA Approved

### Horizontal Conveyorized Sealing System

HCBS-1/4CT-Dual-12x8+CP Dual Heat Rotary Band Sealer includes bag top trimmer and vacuum scrap removal. Compression plate assembly option shown is available to remove excess air from the bagged product before sealing. **High speed production and greater flexibility with product sealing for "lay-flat" packages.** Click the video icon to see the HCBS in operation with a 45 degree angle tilt.

## Validatable Model for Medical Pouches

*Medical Pouch Sealer is supplied with verification ports for process validation of pressure, speed, and temperature.*

**VBS-3/8-DH-10-Validate**

## Validatable

Complete, visible validation for medical pouches. Single line embossing coder available. 3/8" wide hermetic seal. Dual heating and dual cooling bars. Self-contained compressed air.

## New Developments

Shown above:

**Vertical Conveyorized Band Sealer for Handle Pouches with Recloseable Zippers**  
VCBSDM-ET-1/4-6x5 WOLCB floor model renders a 1/4" wide seal without trim. Extended sealing throat allows seal to be placed between a handle cutout and a recloseable zipper. This sealer uses 1" wide heavy duty teflon bands as a standard design. A more "robust" sealer for new style handle bag designs for fresh produce!

Shown below:

### Economy Horizontal Conveyorized Sealing System

A new compact system for conserving floor space and increasing affordability. USDA Approved horizontal band sealer with bag top trimmer and vacuum scrap removal. Excellent for tortillas, bakery products, and many more applications for "lay-flat" packages!

## Visit us at Booth S-2366

APM will be exhibiting at PACK EXPO International in Chicago at McCormick Place, November 2-5. It is also a great opportunity for you to attend and speak with our experienced engineers to learn more about our pouch and bag sealing equipment. Many different models are available for diverse applications such as meat, poultry, seafood, bakery, snacks, medical, pharmaceutical, industrial, pet products, textiles, paper goods, and many more! FREE exhibit hall admission passes are available. Please call us or email us for additional details. Bring your actual products and bags for a demonstration. ◆

*Sample seals show our quality. Simply send us the actual product and the actual bags for evaluation. We are always happy to help you select the best model and provide a quotation for you within your budget.*

*Experience our virtual showroom!*
